

## Walls that move you

# Closure

Welcome to the “Beautiful Hideaway” -- **Closure** is not just a wall; it's a retractable, remote-controlled masterpiece designed to conceal and reveal with a touch of elegance. With **Closure**, you have the power to hide anything you like while highlighting all you love, effortlessly transforming your space.

Create a truly versatile space with **Tudelü** Partition Wall Panels for durable, dense, yet lightweight closure. The **Closure** series features tight stretch (magnets + weights) for easy, stationary division, single-sided decor finish for reversible background options, glides alongside tracks for ultra-quiet closure, and a tiny 10"x10" total housing for super compact spaces. With wall dimensions of up to 10'Hx20'W, you can optimize installation for your unique needs.

## Ideal Environments

## Key Benefits of the Tudelü Systems

- Customizable Sizes of up to 20ft wide x 10ft tall
- Easy Installation, either through Tudelü direct or through our step-by-step instructions.
- 100% Motorized - anyone can operate this product with a simple press of a button.
- Durable Material - including powder coated extruded aluminum.
- Patented Technology - including Stable Griprail Technology.
- Compact Footprint - featuring inset design options, meaning ZERO eye sores.
- Seamless Design - No matter your dimensions, Tudelü walls won't hurt your aesthetic.
- Built-in Safety - auto open feature when the system feels the slightest resistance, so you and your furniture are both safe.
- Easy Maintenance - simple soap and water will keep your system looking new for years to come.
