# Our Mission

Here at **Tudelü** we turn your vision of an ever-evolving world into a reality. Leaders in dynamic space utilization, we specialize in one thing – brilliance and simplicity. “Creating Walls That Move You”, we offer a world of remote-controlled systems that adapt as your space dictates. Featuring multiple patents, a worldwide connection base of research and integration, our walls combine form, function and safety features, all while giving you soundproofing technology that rivals some of the world’s most expensive recording studios.

# Why Tudelü?

Simply put, because we at **Tudelü** are more than just a manufacturer, we are designers, engineers and production staff who, from beginning to end, know not only how your product was made but the minds that manufactured the concept behind it. With over a decade of award winning, patent holding experience, **Tudelü** has worked with thousands of clients throughout North America to solve problems with innovative premium technology all while still having the personalized touch that each project dictates and our standards demand.

# Closure

is a retractable, remote-controlled wall designed to hide things from view.

**Ideal Environments** Kitchens • Office • Hospitality • Home • Remote Work

## Single-Sided Finish Retractable Partition Wall

Striking finish for an elegant wall that completes your space

## 10" x 10" Housing

Takes up very little ceiling space, with just 10"x10" for our most compact housing

## Up to 20' x 10'

Lightweight and rapid retracting, with a max coverage of 20 feet wide by 10 feet high

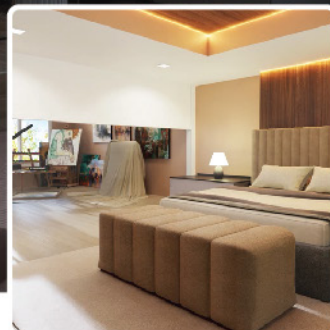

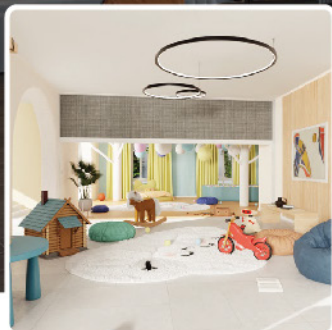

## Easy Retrofitting

Effortless install for new construction or retrofit over a variety of surfaces

Hide anything you like.  
Highlight all you love.

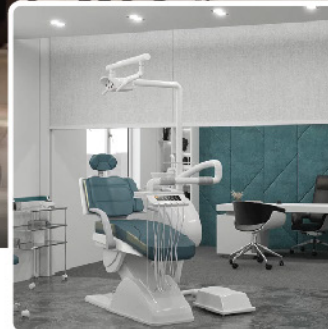

Whether you're looking to cordon off a section, hide a low-use area, or create a child-safe zone, Closeure can turn any space into a stylish oasis.

# Divide your rooms. Conquer your world.

Whether you're looking to break up a conference space, create a guest bedroom, or restrict movement between areas, Private can turn any space into a place of success.

# Private

is a retractable, remote-controlled wall designed to bring people together.

**Ideal Environments** Hospitality • Education • Healthcare  
Kitchens • Office • Home • Remote Work

## Dual-Sided Finish Retractable Partition Wall

Striking, customizable finish for an elegant wall that completes your space

## No Structure Needed

Requires no added structural support or special reinforcement in ceiling

## Rated at 36 STC

Reduces noise transfer between spaces—as well as a sheet rock wall!

## Easy Retrofitting

Effortless install for new construction or retrofit into existing structure

**Strategic division.  
And give them their privacy.**

Private System

09

# Secluded

is a retractable, remote-controlled wall designed to divide your space as you need it.

**Ideal Environments** Kitchens • Hospitality • Education  
Healthcare • Office • Home • Remote Work

## Dual-Sided Finish Retractable Partition Wall

Striking finish for an elegant wall that completes your space

## No Structure Needed

Requires no added structural support or special reinforcement in ceiling

## Rated at 40 STC

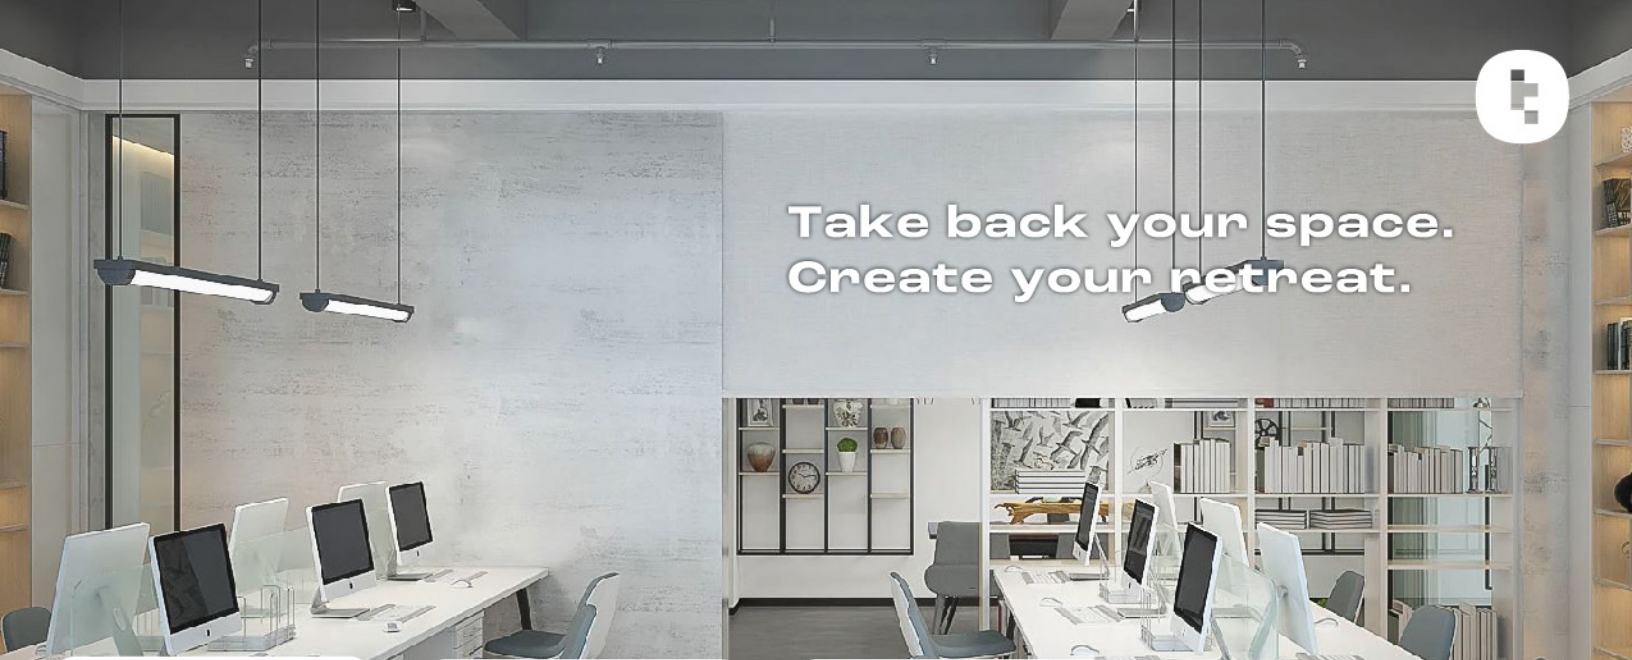

Soundproofing spaces - as well as sheetrock wall with wood backing!

## Easy Retrofitting

Effortless install for new construction or retrofitting into existing structure.

Take back your space.  
Create your retreat.

Whether you're looking to create your own oasis in the city, separate a private party in a busy restaurant, or just claim a spot for me, Secluded will drown out the distractions and give you peace.

For podcast studios.  
And corporate secrets.

Whether you're looking to create a 'dead room', seal a party space, or maintain client or patient privacy, Mute can turn any public space into a private one.

# Mute

is a retractable, remote-controlled wall designed to shut out nearby noise.

**Ideal Environments** Education • Office • Kitchens • Hospitality  
Healthcare • Dining • Home • Remote Work • Concerts

## Five-Layer Vinyl Retractable Partition Wall

Feels like a solid wall you can lean on and bump against

## Modular Delivery

Smart design and packaging for easy delivery to install site

## Rated at 48 STC

Use adjacent spaces for different purposes with no sound leak

## Professional Install

Requires construction and an i-beam or one of our other options

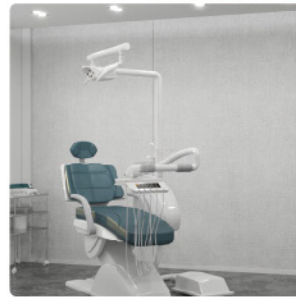

**Stylish silence.**  
**And bring it back on demand.**

# When there's a wall, **there's** **a way!**

Get your **Tudelü** delivered in as little as 12 weeks and make more of your every space.

**Thank  
you!**
